NAMES LIST OF VICTIMS OF THE HOLOCAUST

This list contains the names of 5,000 Jewish and non-Jewish individuals who were murdered by Nazi Germany and its collaborators between 1939 and 1945. The victims' names are organized either by country of origin or place of death.

Unfortunately, there is no single list of those known to have perished during the Holocaust. The list provided here is a very small sample of names taken from archival documents at the United States Holocaust Memorial Museum.
