Why did the Nazi regime systematically persecute and ultimately annihilate six million Jews between 1933 and 1945? Why were Roma, persons with mental and physical disabilities, Poles, and African Germans targeted by the Nazis for destruction or decimation for racial, ethnic, or national reasons? And why did millions more, including homosexuals, Jehovah’s Witnesses, Soviet prisoners of war, and political opponents also suffer grievous oppression and death under Nazi tyranny? Nazi ideology and the Holocaust address these questions and provides a framework for understanding not only the ideology of the Nazi regime but the unprecedented human consequences, the moral, and ethical implications for our world and the destruction of millions of others.

NAZI IDEOLOGY and the HOLOCAUST

A living memorial to the Holocaust, the United States Holocaust Memorial Museum stimulates leaders and citizens to confront hatred, promote human dignity, and strengthen democracy. Through a public/private partnership, federal support guarantees the Museum’s permanence, and donors nationwide make possible its educational activities and global outreach.
