MODIFICATIONS

The lesson is intentionally flexible to allow for individual teacher modifications to achieve educational outcomes. Technology and teaching strategies are suggested in the instructional sequence; please use other options if they support the learning needs of your students. Consider utilizing graphic organizers, note-taking strategies, reading choices, and online engagement tools.

Educators may choose to use learner variability modifications specific to this lesson:
- Teachers can provide students with choices as to how they access information throughout lessons, i.e. read print alone, read print with a partner, read along while the teacher reads aloud, etc.
- Define terms that would clarify understanding for students.
- Reference the Glossary in the Holocaust Encyclopedia for definitional support.
- Use online discussion or engagement tools that work best in your classroom, such as Padlet.
- Holocaust Encyclopedia articles are available in various languages; refer to the word “Language” and select the Globe icon available on the lefthand side of the article.
- The Path to Nazi Genocide is subtitled in 12 languages. Scroll below the video to see the options.
- Incorporate strategies such as think-pair-share and jigsaw to enhance student engagement.

This lesson is available as an online, asynchronous experience for students, which can be accessed through a web browser or LMS files. The online lessons are accessible for all students for in-person and virtual learning, and they provide specific support for students using screen readers.
LESSON: Overview of the Holocaust (2-Day Lesson)

PART ONE: PRE-LESSON ASSIGNMENT

1. Ask students to read about one individual in the Holocaust by assigning one card to pairs of students from the following 15 profile cards. Ask them to underline or digitally highlight the major events that impacted that person's experience during the Holocaust.

   Teacher note: These cards are excerpted from a larger USHMM Timeline Activity Lesson. Highlighted dates in the cards indicate the year on which the person’s card would be placed on the larger timeline. Teachers may also choose to post or share in digital format the Historical Events and/or Laws and Decrees from this lesson to provide context.

PART TWO: LESSON

DAY ONE

  Introduction

1. Explain that in this lesson, students will address two essential questions:

   What was the Holocaust?
   How and why did the Holocaust happen?

2. Ask students to create a working definition of the Holocaust.

3. Ask students to complete a KWL chart (students may work in pairs).

   ASK THE STUDENTS

   ● What do you know about the Holocaust?
   ● What do you want to know about the Holocaust?

4. Review and discuss the KWL charts.

Definitions

1. Provide the following USHMM definition of the Holocaust and post for reference.

   The Holocaust was the systematic, state-sponsored persecution and murder of approximately six million European Jews by the Nazi regime and its collaborators in the years leading up to and during World War II. During the era of the Holocaust (1933-1945), German authorities also targeted other

groups because of their perceived “racial inferiority”: Roma (Gypsies), disabled persons, and some of the Slavic peoples (Poles, Russians, and others). Other groups were persecuted on political, ideological, and behavioral grounds, among them Communists, Socialists, Jehovah’s Witnesses, and homosexuals.

2. Ask students: Were there elements missing in the definition you created? Describe how your definition of the Holocaust reflects similarities and differences from the USHMM definition. What parts of this Museum definition do you have questions about?

3. Explain to students that they will hear the words Nazi racial ideology and antisemitism in the film they are about to watch. Review the definitions below.

- **Antisemitism**: prejudice against or hatred of Jewish people.
- **Nazi racial ideology**: belief that the world was divided up into competing inferior and superior races, each struggling for survival and dominance. Successful races maintained racial purity, reproduced to expand and strengthen the race-nation, and conquered territory and resources at the expense of inferior races. In the Nazis’ eyes, Jews were not a religious denomination, but a dangerous non-European “race.”

Refer to the “Nazi Racism” and “Antisemitism” articles to answer additional questions.

**View Film**

1. Watch The Path to Nazi Genocide, chapters 1 - 3 (24 minutes)
   As students view the film, ask them to answer questions 1-7 (short answer questions only) on the accompanying worksheet (an answer key is provided for teachers).

   - **Ch. 1 Aftermath of WWI and the Rise of Nazism 1918-33** (12 minutes)
     ○ Pause for whole group check in
     ○ Group/Pair Share to answer the questions that students find the most challenging. (Short questions 1-3)

   - **Ch. 2 Building a National Community 1933-36** (6 minutes)
     ○ Pause for whole group check in
     ○ Group/Pair Share to answer the questions that students find the most challenging. (Short answer questions 4-5)

   - **Ch. 3 From Citizens to Outcasts 1933-38** (6 minutes)
     ○ Pause for whole group check in
     ○ Group/Pair Share to answer the questions that students find the most challenging. (Short answer questions 6-7)
LESSON: Overview of the Holocaust (2-Day Lesson)

**Teacher note:** Acknowledge that studying the Holocaust can be emotional. Ask students to reflect on the film and allow space for discussion of emotional reactions and challenges of studying this difficult history. When the film concludes students may post reactions on a padlet or in a journal.

**Introduce Homework**

1. Read and annotate the USHMM Holocaust Encyclopedia article: “How did the Nazis and their collaborators implement the Holocaust?” (can be printed and distributed in hard copy or assigned as a link).

**ASK THE STUDENTS**

- How does this article deepen your understanding of the actions that the Nazis and their collaborators took to persecute and then murder the Jewish people of Europe?
- Underline or highlight words that require clarification, and use the KWL chart to fill in new content that you have learned and record questions raised by the article that you would like to explore further.

**DAY TWO**

**Review Homework**

1. Begin class with the students’ homework responses by asking students to share at least one of their responses from the homework with the class.

**View Film**

1. Acknowledge for students that the content in today’s video (Chapter 4) may be difficult. Ask students to reflect on the film after viewing and allow space for discussion of emotional reactions and challenges of studying this difficult history. While it is important to understand what happened and think about why it happened, it can be hard to watch and grapple with the reality and the magnitude of the suffering.

**Teacher note:** In some classes, you may choose to omit the section with graphic film footage of a killing operation (minutes 4:43 to 5:40).

2. Watch *The Path to Nazi Genocide* (Chapter 4: World War II and the Holocaust 1939-45 (14 minutes))
   - As students view the film, ask them to answer questions 8-9 on the accompanying worksheet (an answer key is provided for teachers).
   - When the film concludes, consider checking in as a group; students may post reactions on a padlet or in a journal.
LESSON: Overview of the Holocaust (2-Day Lesson)

3. Students may review their worksheet answers in pairs to support small group or whole class discussion in classrooms or online break out rooms.

4. Discuss as a whole group questions raised by Chapter 4 of the film as well as those generated from the homework assignment.

   Teacher note: Students may choose at this time to take a gallery walk or review the digital version of the Historical Events or Laws and Decrees from the Timeline Lesson to reinforce learning from the film.

5. Students share stories from their profile cards.

   **ASK THE STUDENTS**
   - How was each person's life impacted by events you saw in the film?
   - What can we learn by looking at a single person’s experiences? *(Sample answers: Each individual's experience was different depending on time, place, family, or opportunities available to them. It can be difficult to comprehend what happened to so many people and easier when we can just look at only a few. Survival depended on chance in many circumstances.)*
   - What do the individual stories reveal about the Holocaust that the film and encyclopedia article did not?

**Exit Ticket**

1. Return to the KWL chart and fill in any new content that you have learned and identify any remaining questions you would like to know more about.

**CONCLUSION**

**ASSESSMENT**

Listen to the 15-minute podcast episode, Holocaust Survivors’ Reflections and Hopes for the Future.

**ASK THE STUDENTS**

- Select the passage that resonates the most for you (note the time code), and explain why.
- Form an opinion and create a claim about what you believe can be learned from studying the Holocaust; cite evidence from the film, encyclopedia article, and profile cards to support your argument.
LESSON: Overview of the Holocaust (2-Day Lesson)

- Why do you think it is important to study how and why the Holocaust happened?
- What do you think people can learn from it?

OPTIONAL: Read more about the person whose passage you chose (see links below).
- How does the person’s experiences during the Holocaust illustrate aspects of the history that you learned about in the lesson?
- How were their experiences the same or different than those you learned about from the profile cards?

EXTENSIONS
1. Explore the Holocaust Encyclopedia to investigate remaining questions from the KWL charts.

2. A four day version of this lesson is also available. It incorporates additional activities in which students use primary resources from the Museum’s collections to learn more about how the Holocaust occurred and to investigate the actions of ordinary people during the Holocaust.

3. With the growing availability of books, films, and website content about the Holocaust, choosing the right resource for classroom use can be difficult. The Museum offers a bibliography and videography of selected resources with grade levels and Lexile Scores noted when available. It includes diaries, memoirs, secondary sources, literature, graphic novels, and films. This resource is not intended to be comprehensive but to serve as a starting point. In addition, to help teachers make sound teaching resource decisions beyond those listed in the bibliography and videography, the Museum offers a resource evaluation rubric.
