

## Cooperation Contract

### Appendix 3

#### User Declaration

for the use of the following reproductions of BLHA archival documents:

---

---

---

I confirm that I have been informed of the fact that I can use the reproductions provided to me and information that they contain solely for the scholarly research project described below.

The United States Holocaust Memorial Museum has advised me of the requirements regarding the use of personal information from the archival material of the Brandenburg State Archives (the "BLHA). I will not make use of any information that identifies individual persons, unless the personal information identifies persons who have been deceased for more than ten (10) years or historical figures or current public figures carrying out their official duties. (If the date of death is not possible to ascertain, the information will be protected for ninety (90) years after the birth date of the person concerned.) In all other cases, I will obtain the written approval of the BLHA before publishing any personal information. I will comply with any applicable copyright restrictions and privacy laws.

If I am given copies of these archival materials, I will use them only for the specific purpose below. I will not provide copies to third parties. I will acknowledge the BLHA as the source of these materials in any publication that uses information from these archival materials, and will cite the BLHA archival signature (record group number) assigned to each document, as applicable.

I will not hold the BLHA responsible for any claims of copyright infringement or violation of privacy rights that may result from my use of these archival materials.

I understand that this User Declaration is subject to German law and that the place of jurisdiction is Potsdam.

I agree to provide the BLHA without specific request a complimentary copy of any publication for which I have used archival material from the BLHA.

I understand that the Museum may provide my name and the purpose of this use of archival materials to the BLHA.
